

## TECHNICAL LEAFLET

### EURODEKOR MELAMINE FACED BOARDS

#### Material description:

Melamine faced wood-based material with a matt finish surface texture with a low gloss level.

### Surface texture: ST9 Perfect Matt

#### DESCRIPTION

Surface texture ST9 Perfect Matt is a matt finish with a low gloss level. With its smooth, silky finish and low reflection, it provides the look and feel of real wood veneer.

The ST9 Perfect Matt texture is therefore particularly well suited for light to medium solid colours and reduced pore woods such as walnut.

#### SPECIAL FEATURES

In conjunction with dark solid colours and dark wood finishes, we point out that markings are more visible than with lighter designs. These occurring traces are not a qualitative impairment of the surface. In the design of work surfaces, furniture and interior work with the surface structure ST9 Perfect Matt, this information should be taken into consideration to assess the suitability for the intended application of the final product accordingly. Basically, the surface properties meet the high standard of quality EGGER and the applicable standards and regulations.

#### COMPOSITION

Single layer

#### GLOSS LEVEL

Gloss points (60°): 7 +2/-1

#### DECOR COLLECTION

ZOOM COLLECTION

#### SAMPLING

Product: Eurodekor melamine faced chipboard – 8mm  
Decors: according collection  
Format: 700 x 500mm and DIN A4 (210 x 297mm)
